MEMORANDUM CIRCULAR NO. 003.17

TO : ALL WATER DISTRICTS and RWSAs

SUBJECT: LISTAHANG TUBIG PROJECT - Third Call

Listahang Tubig, or water register, is a national survey to identify and develop a database of all water service providers in the country. In 2014 the National Water Resources Board [NWRB] as the lead agency, with the Department of the Interior and Local Government [DILG], and the LWUA as partner agencies, signed a Memorandum of Agreement [MOA] to implement *Listahang Tubig*. The National Economic Development Agency [NEDA] provides policy direction in relation to the Philippine Water Supply Sector Program.

Listahang Tubig collects and annually updates all relevant data needed for the proper appropriation, utilization, exploitation, conservation and protection of water resources in the country pursuant to the Water Code.

Water Districts and RWSAs, being among the major users and protectors of the country's water resources, are encouraged to participate in the survey for the following compelling reasons:

1. data generated will give them information on areas where they can still improve water service to the community;
2. said data can be used to justify investments and budget requests for water supply, conservation and protection projects; and
3. if warranted, the same data can be used for sourcing soft loans and grants for servicing disadvantaged areas

WDs and RWSAs that have already responded to the survey are also encouraged to annually update their data online at <http://listahangtubig.cloudapp.net>.
