

LWUA STRATEGY MAP

VISION: The leader in building self-reliant and sustainable water utilities, we envision by 2016 to be the preferred partner to all water service providers toward serving the Filipino people in the countryside.

MISSION

- To develop water utilities into self-sustaining institutions by providing financial, technical, institutional and regulatory assistance
- To promote universal access to potable water by partnering with other government agencies and private institutions in the development of water service providers
- To promote sanitation including septage and sewerage
- To build and sustain a viable, effective and world-class organization

CORE VALUES

- God-Centered
- Dedication
- Professionalism
- Integrity
- Excellence
